What do you do if your computer is lost or stolen?

Suppose it just runs away from home?

Is it smart enough to tell you where it is?

It is, if it has PC PhoneHome™ or MacPhoneHome™ inside...

PC PhoneHome™ / MacPhoneHome™ is a transparent theft protection, tracking and recovery software that can be installed on a laptop, desktop or PDA. Every time the device makes an internet connection, a stealth email message containing its exact location will be invisibly transmitted to a pre-determined email address of the user's choice

Allows for the quick location and retrieval of your valuable property. Prevents loss of expensive equipment and intellectual property. Highly Tamperproof - Cannot be removed by unauthorized parties
