

PC PhoneHome™

Tracks & Locates Missing Computers

yearly monitoring fees, no additional charges, and no hidden costs! How does PC PhoneHome™ work? Every time you boot your computer and have an Internet connection, PC PhoneHome™ sends a stealth e-mail message containing its exact location to a pre-determined e-mail address set by the user. In the event the computer is stolen, you file a theft report with the local police and then notify Brigadoon Software's Command and Tracking Center, which will provide full tracking and recovery support. When the stolen computer goes online, it will send a stealth message to the pre-determined e-mail address containing its exact location. Once this information is received, our recovery agents work with you and the investigating law enforcement agency to recover the stolen property. Worldwide tracking and recovery. Highly tamper-proof. Can't be removed by unauthorized parties. Compatible with Windows 95/98/ME/XP/NT/2K Price: \$29.95 USD

Enterprise

thousands of computers. We've taken the hassle out of protecting your computers with Enterprise! Enterprise allows your organization to deploy either the Windows or Macintosh version of Enterprise via "Ghosting" or various "Network Push" techniques. Unlike our Pro version, which needs to be individually configured, Enterprise is configured for your organization here in our lab. We hard code your organization's ownership and reach information right into the source code. You simply deploy your customized Enterprise edition to your organization's machines. No hassle. No long term deployment time frame. Same specs as Windows and Macintosh Pro versions. Used by academic institutions, corporations and government agencies worldwide. Special low cost Enterprise versions allow organizations to safeguard their property at a fraction of retail cost.

PC PhoneHome™ is the pre-eminent computer tracking and theft recovery software in the world. Unlike other tracking agents, PC PhoneHome™ allows the user to do their own monitoring at a significant reduction in cost. With PC PhoneHome™ there is no
